Leading Innovations & Inclusion Academy : Session 4

North East ADASS

Housekeeping & Welcome

Agenda

Your updates

Playbook – What do we mean by ROI?

Next steps & Master Classes

Updates

- Shared folders
- D&T Network

Updates

Action Learning Set (ALS) Journey Map

ALS 4 – Making It Work in the Real World (Systems, Barriers & Dependencies)

Purpose

Ensure innovation projects are realistic and deliverable in complex ASC environments.

Barrier Prediction Workshop

Using prompts:

- What assumptions does this rely on?
- Who might block or resist this?
- What governance or tech constraints exist?

System Integration Mapping

- For predictive discharge tools > responder services, family notifications, analytics teams
- For digital front door > LAS / MOSAIC integration, triage logic, explainers

Minimal Viable Test Planning

- What can be safely tested in 30 days

Outputs

- Implementation risk / barrier log
- System dependency map
- 30-day test plan

D&T Network

🚀 Ready to see where you stand? Take our **free Digital Maturity Assessment** via the **D&T Hub** – it gives you a clear, visual snapshot of your strengths and areas to grow. Quick, easy, and genuinely useful.
